Subject **Exploratory Meeting Announcement**
Operator Focused Cybersecurity Users Forum

Chair Jeffrey Rae, United Airlines

Host ARINC Industry Activities

When August 29, 2023

Meeting Times	US Pacific	US Eastern	Central European
Start	0800	1100	1700
Adjourn	1000	1300	1900

Where This meeting will be 100% virtual.

Instructions Please notify the ARINC Industry Activities staff of your intention to attend by registering online at: <https://aviation-ia.sae-itc.com/forms/meeting-registration-form>.

This meeting is open to all interested parties. Individuals requesting time on the agenda should contact Vanessa Mastros before August 20. The agenda and web conference instructions will be distributed one week prior to the meeting.

Activity Scope The goal of this meeting is to explore the interest in an AEEC Operator-Focused Cybersecurity Users Forum. An Operator Focused Cybersecurity Users Forum is envisioned as a platform where Airlines and cybersecurity suppliers gather to discuss technical topics, share knowledge, ask and answer questions, and collaborate.

Meeting Objectives The main purpose of an Operator Focused Cybersecurity Users Forum is to facilitate communication and knowledge-sharing among its participants. Users can ask questions about specific technical problems they encounter, seek advice on best practices, share tutorials or guides they have created, and engage in discussions related to cybersecurity. This environment would encourage peer-to-peer learning and

support, making it an invaluable resource for both beginners and experienced professionals.

This forum would play a vital role in fostering learning, networking, and problem-solving within the technical community.
