# Options for IPS Gateway Material

Option 1 – Move AppxC material to an attachment (<mark>current plan</mark>)

- **Straightforward move**
- **Address cross-references (minimal)**
  - 2 forward references from Main Body to IPS GW
  - 3 backward references from IPS GW to Main Body
- **LARGE attachment**
  - ~50 pages (25% of 858)
  - ~34 figures (33% of 858)

Option 2 – Promote AppxC material to Part 2 of PP858 (<mark>preferred</mark>)

- **Still relatively easy to implement**
- **Address cross-references (same as Opt1)**
- **PP858p1** = ~150 pages, ~60 figures
- **PP858p2** = ~60 pages, ~34 figures
  - C-1 Introduction   → Section 1.0
  - C-2 Background   → Section 2.0
  - C-3 Requirements   → Section 3.0
  - C-4 IPS-ACARS GW   → Section 4.0
  - C-5 IPS-OSI GW   → Section 5.0
